Hatred against the Jewish people is rising at an alarming rate. Have you seen what happened in university campuses across the U.S., in at least 13 of these institutions? This same thing is being seen in Europe as well, from London, to Paris to Geneva to Germany.

This demonstration of hatred against the Jewish people is great, so much so that for the first time, many Jewish students fear for their lives to the point that the rabbi of Columbia University asked Jewish students to stay home.

But what is stunning is that many of the protestors also chanted "Death to America". But this also is another sign of things to come. Some news never changes. What we see happening in these universities are powerful signs of things to come. Were you aware that in some universities, protestors prevented Jewish students from entering the university?

What we are seeing today, is not a Jewish problem, it is a prologue to worldwide trouble. We remember what Paul said in Romans 2:9 *There will be tribulation and distress for every soul of man who does evil, of the Jew first and also of the Gentiles.*

As for us, let us not be disturbed or swayed away from what the Word of God teaches. Though we may be seeing quite a few believers who have started drifting off by following world opinion, being especially influenced by the news, our task is to hold on to what is true and to pray and proclaim His soon victory.
